Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.
Staying warm in cold nights and making sure mum doesn't fly away while she sleeps by sleeping on her chest with all my 8 k.

What is the funniest thing that has ever happened to you?

When I came home after my cat mum died, I was only 20 days old, and I slept on my hoomin mum's hand and occupied only half of it. Then I started eating from her plate and even thrown all the milk from the cup and made a mess.

Please share your adoption story

A neighbour brought me to my new home because my cat mum died, I've been living here for almost 8 years.

What is your favourite thing to play with?

My younger siblings, mobile phone, balls.

What kind of food do you like to eat?

I have urinary dry food because one of my younger brothers has kidney disease and I also like meat and chicken

Do you like going for car rides?

My mum has a motorbike and, once, she took me to the vet in the carrier, to check my leg. At first I was scared, but then I liked the wind on my long fur.

Bitty Space Program

"Where imagination meets ingenuity"

What is your favourite cartoon character?

I don't watch tv.

If you drove a car, what make, model and colour would it be and why?

I am a motorbike co-pilot. So a sport one would be fine, black, to ride side by side with mum.

Do you have a theme song? What is it?

We listen to heavy metal, so AC DC Dirty deeds done dirt cheap is our favourite.

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I have two very young brothers at home, and mom feeds 10 more who visit us from time to time. I am older than them.

What is the name of your human sponsor or sponsors?

My mum

What type of position are you applying for? What special skills do you think we could use for our program?

I am almost 8 years old, I am an experienced sleeper, snuggler, I like tools and making a fuzz when mum is repairing something. I could be a mechanic or an engineer. I like to be in the middle of everything that is being done.

What else do we need to know about you?

As an older member of the crew, I could help keeping the younger member and fuzzy bums in order. My abilities with mum's tools could be very useful during the space travel. I would use my old age/wisdom to help solve problems ;)

Signed: *Dami*
