Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.
I let them know the time by sitting and staring at them. Then when they asks me what I want I tells them very clearly and then I guide them to the dinner tin in case they get losted on the way. Of course I minds my manners and sits while meowmy scoops out my kibblies.

What is the funniest thing that has ever happened to you?

When I gets fwightened I may have a habit of launching vertically into the air. I can gets to about three feet on a good day. Great for looking out of spaceship windows. I can also be meeter and greeter, coz I really good at shaking hands. Plus I make pretty good security kitty coz I very big. I weigh 9.7 kg and my Hudad has me practicing to play drums.

Please share your adoption story

I was lefted on my own and my meowmy founded me in a shelter bouncing around and chasing fings. She grabbed me on my way past and she felt goood! I gave her a cuddle back and a hug and she was putty in my paws from that day on. I went to that V.E.T. Place and then meowmy tookded me home. I sang the song of my people the whole way and nows whenever we in the car I get worried she might leave me, so I sing and mebbe have a little accident, but meowmy is never angry coz she knows I scared. She gives me treats and cuddles afterwards to say sowwy.
