Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.

The human makes the bed every day to keeps cat hair off the bottom sheet, but I helps her get it ready by pushing the duvet down so she can get in more easily.

What is the funniest thing that has ever happened to you?

I stepped on the bin pedal and helped myself to a new toy (tampon applicator) and had lots of fun playing until mum confiscated it and returned it to the bin.

Please share your adoption story

I gots a very special story.

I was born into a feral colony of around 70 cats that lived on the property of an animal hoarder. I always had enough snacks, but I gotted no socialisation or interactions. In August 2014, I was rescued with 60 of my friends. The rescue people said I was about 18 months old when I gotted rescued. I was very shy and skittish, I runs very fast away from the human people and I was hissy and spitty because I was very scared. Nobody wanted me because I didn't have such good manners, I wasn't a kitten and I had a very big scared of people. I was moved to a rescue centre that taked long term cats and said they'd keep me for my whole life if I wasn't very sure about living with the humans. Me and my bestest friend Treacle from the colony gots to stay together.

In April 2017, a very nice lady contacted the rescue centre. She said she was buying her first flat and wanted to adopt a cat companion. She said she had no preferences about age or gender and wanted to give some cats that were difficult to home a nice forever home for themselves. She asked after me because she had seen my picture on the internet and it didn't say I'd been adopted but she thought maybe I wasn't there any more because she didn't think I'd still be there after 3 years. The next week she came to visit me, but she'd already made up her mind. She said she didn't mind whatever I was like and even if I was ferocious she'd give me lots and lots of time and space and a wonderful home. She'd heard Neelix and Sloaney's stories and wanted to change a little cat's life. But the rescue centre said they wouldn't let me be adopted without my bestest friend Treacle. Our new mum said there was no way she'd dream of separating us and would absolutely take us both, even though Treacle was much much more shy than me. She visited us every week until the flat sale was complete, and then she took us home the day after she moved in! She's very patient and she doesn't mind that I don't always want the snuggles. I get to go at my own pace, and now I don't run away when she moves! I even quite like the scratches sometimes and have just started doing a flop and roll so I get my belly stroked! I love having my own forever home after spending 3 years in a rescue centre.

What is your favourite thing to play with?

Treacle, any dangly toys, kickers, house plants, the bathtub.

What kind of food do you like to eat?

I'm on a special diet because I got a nasty bug called Trichostrongylus in the rescue centre which gave me a bad tummy. Mum tried lots of things for months and months and the vet did so many tests and then after 8 months they finally found the nasty bug. I had to take nasty medicines for a little bit, but I'm all better now. I'm still on a special diet as I probably had the bug for a long long time and my tummy needs time to recover fully. I'm partial to the occasional glass of wine at the weekend and I like eating house plants.

Do you like going for car rides?

Yes as long as I am in a carrier with Treacle. Otherwise I sing the song of my people very loudly.

What is your favourite cartoon character?

I'm quite new to the television things because in the big outside and in the rescue there wasn't any televisions. So far, we like watching "Supervet," any David Attenborough documentaries, ice skating and athletics, but we don't know about cartoons yet.

If you drove a car, what make, model and colour would it be and why?

The batmobile, because I look a little bit like Batman (crossed with Marilyn Monroe)

Do you have a theme song? What is it?

Beethoven Sonata No. 8 Op. 13 (Pathétique) from 2:04 <https://youtu.be/SrcOckYQX3c?t=2m4s>

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I gots one sister, Treacle. We are bestest friends and are applying for the Bitty Space Program together. Because of our history, we are very bonded and cannot be separated even for 5 minutes. So either we both gets on the BSP or neither of us because we gots to stay together. Our mum tried to separate us once to gives me a medicine, and we stood on either side of the door howling for eachother. Now she knows better and she never ever separates us.

What is the name of your human sponsor or sponsors?

Maya Mistry (little bits a silly surname but she said she cant helps it)

What type of position are you applying for? What special skills do you think we could use for our program?

I'd likes any position that I can do with my friend Treacle.

We're very very super speedy and got good jumping skills. We also good at hiding because we used to be feral so maybe some sort of spy to scout out information from competitors. I'm also an excellent biscuit maker and so could work in the kitchen baking everybody snacks.

I gots another special skill – when I makes the hairballs, I always sick them up in the litter tray as I'm very clean and tidy cat. Not sure this is helpful to the BSP though.

What else do we need to know about you?

I gots a lazy eye so when I'm sleepy it looks like I'm winking.

I attached various bits of photographic evidence to my application and I really hope me and Treacle gets a spot. Our lives have changed so much in the last year and we've grown in confidence lots. We think we're 100% ready to take on a full time career now and share how special we are with an international audience. We appreciate the opportunity to apply for the Bitty Space Program, as we never would have gots this opportunity in the colony or rescue. We also have an instagram so would be willing to share the BSP on multiple social media platforms.
