Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.

I help my humans by running around as much as possible. This gives me and them a lot of exercise. I also am happy to troubleshoot things like locked drawers, cupboards, closets and anyplace where I am not supposed to go. I am very helpful in the kitchen because as soon as human goes in there, I join them on the counter to oversee food preparation.

What is the funniest thing that has ever happened to you?

I like to climb the bamboo tree in our living room, because it helps me to hone my climbing and high altitude skills. A few weeks ago meowmies decided that (mostly because of Momo), we should try soft caps on our claws so that they can maybe buy a new couch and it won't be destroyed. I came home from vet and hadn't really thought about impact of these blue toes. I love the toes, but I forgot and I launched myself into the tree as usual. Except I had no way to hold on and so I slid down and fell beside the pot and the wall. AND I GOT STUCK. Humans should really advise of these things.

Please share your adoption story

So I got adopted from TinyKittens with the other fuzzybums – Momo, Nellie Bean and Larry. We were saved when we were tiny and I was the one that helped to make everybody feel better because we were kinda scared before that. I was mostly worried about Bean, cuz she was hurted, and Lucy cuz she was pretty weak. But then we went to see Shelly and she gave us a really excellent place to explore with a couch and toys and a camper and wall that was only a few feet high. She thoughted

that cuz we were little we couldn't get over it, but I showed her! And then meowmies came one day, and we drove all in one big box to our new house (we don't fit in that box any more) and now we are here and it is AWESOME.

What is your favourite thing to play with?

Everything. I have a short attention span so I run from toy to toy. I like my space toys from Bean Bunny and Sweetums. A catronaut and stuff. Cool!

What kind of food do you like to eat?

Kibble. Wet food. Cookies. I don't care about human food. It's stupid.

Do you like going for car rides?

I like going fast, but I can never see out. But I am always interested in what will happen when we get where we are going and who I will meet and what I will see.

What is your favourite cartoon character?

Bart Simpson

If you drove a car, what make, model and colour would it be and why?

Car? Why would I need a care? I would like a Motorcycle – an Ecosse Moto Works Founder's Edition Titanium XX (FE Ti XX). It's only \$300,000 so that should be no problem.

Do you have a theme song? What is it?

Tim Timeree, Tim Timeree, Tim Tim Teroo. Good luck will rub off when I shake paws with you.

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

Three. All of them are part of the Space Program – Momo, Larry and Nellie Bean. We have been together every single day of our whole lives and will never be apart not ever. We are best friends.

What is the name of your human sponsor or sponsors?

Meowmy and Mama

What type of position are you applying for? What special skills do you think we could use for our program?

I am already Commander of the Bitty Space Program. I'm good at almost everything, so that's why I'm Commander. Also I am like Elon Musk. Adventurous!

What else do we need to know about you?

Your safety is my first priority. Well also getting to space, being rich and being famous. And loved. But you know, safety too!
