Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.
Well, my name is Einstein, so I can do pretty much everything better than them. I love "telling" my Meowmy things daily.

What is the funniest thing that has ever happened to you?

I am too smart for anything funny to happen. I am very cautious and let my stupid brother get into all the funny situations.

Please share your adoption story

I was at the homeless shelter when Meowmy walked in and took one look at me and fell in love. On the way home she said "what are we going to name our little Einstein?" And the rest is history.

What is your favourite thing to play with?

I love strings, grumpy cat, my kicker and puffy balls.

What kind of food do you like to eat?

I love when Meowmy cooks steak. I sit next to her, give her my sad eyes and she gives me some.

Do you like going for car rides?

No! Since I can't be in charge and I am caged up, I sing the song of my people until I am uncaged.

"Where imagination meets ingenuity"

What is your favourite cartoon character?

Mr. Peabody!

If you drove a car, what make, model and colour would it be and why?

Chevy Corvette, Black. Because they are fast!

Do you have a theme song? What is it?

My Meowmy sings a song that is based on the Spiderman theme "Steiny cat, Steiny cat, does whatever a Steiny cat does."

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

My older sister is laid back Jazz (Jasmine) she is cool. My brother from another mother is Ted E. Bear and he is dumber than a box of rocks. My baby brother kittens are Bolt and Sully. Bolt is a "wild and crazy cat" and Sully is a tabby like me and I love him! I also live with a dumb dog named T-bone. I growl and hiss at him.

What is the name of your human sponsor or sponsors?

Meowmy is Julie and Daddy is Rusty

What type of position are you applying for? What special skills do you think we could use for our program?

Aeronautical Engineer. I am pretty familiar with relativity. I think that says it all!

What else do we need to know about you?

I love my Meowmy to pieces. I actually meow and say Mama when she comes home. I love to give her head bumps, she calls lovings. My favorite word is treat. I know I would be the best cat for the Engineering position. I hope you choose me!

Signed: *Justin*
