Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.  
*As a kitten, I helped our Primary Human with quality control testing of all foodstuffs. I continue to supurrvise her and her adult kittens (when they visit) in the bathroom, as it has been my experience bathrooms are dangerous places. Plus, they are not doing anything of importance sitting there, so they might as well pet me.*

What is the funniest thing that has ever happened to you?

*While doing Quality Control on a bowl of apple cake batter as a kitten, I fell in! The Primary Human fished me out and then bathed me with soap! My normally sleek fur was very rough*

Please share your adoption story

*We were adopted at 3 months from a farm. We started out Barn Cats. Several days after we became House Cats, our mother, father, sister, brother and all our cousins were killed by the new dogs the farmers brought in to take care of the coyotes. We are the only survivors. We hear that farm now has a serious mice/rat problem...and there are still coyotes too.*

What is your favourite thing to play with?

*I like playing bubbles, but only with the oldest Visting Human. I also love toy mice, mice on sticks, my kicker and catnip*
