I help wake meowmy when I need water from the faucet.

What is the funniest thing that has ever happened to you?
When I was a wee one my uncle took his partial teeth out. While he was sleeping I decided to push them off the nightstand and chomp on them to leave my mark.

Please share your adoption story
I was found wandering and was picked up by a rescue organization. I was found by my auntie and meowmy and adopted with another cat called Luke, my brother from another mother.   I have lived with my meowmy ever since. I am now 19. My brother passed a year ago but I have another sister who came to us about 10 years ago. She is annoying but sometimes I think she is ok.

What is your favourite thing to play with?
My catnip toys. I carry them from room to room at night

What kind of food do you like to eat?
Dry and soft foods cause I haven't had teeth since 6 years old. They made my body sick. Once they were removed I have been ok. I also like my cat candy at night.

Do you like going for car rides?
Oh gosh no. When I was having my teeth problems I had to go to many doctors to help me. I always knew when I would get in the car where I was going.

What is your favourite cartoon character?
Gotta be Garfield.

If you drove a car, what make, model and colour would it be and why?
I'm old so something reliable.

Do you have a theme song? What is it?
I will survive by Gloria Gaynor

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.
I used to have a brother (RIP). I gave a sister named Missy. She is 10 and we get along but I have to show her sometimes whose boss. I dislike the fact that she is faster then me.

What is the name of your human sponsor or sponsors?
Jeannie Paoli

What type of position are you applying for? What special skills do you think we could use for our program?
Well my being old and slow something like an analyst. I am good with numbers and can help with trajectory, documentation, anything to use my brain.

What else do we need to know about you?
I haven't had an adventure in a long time. Looking for something fun.

Signed;
