| <input checked="" type="checkbox"/> Tripping humans | <input checked="" type="checkbox"/> Hiding | |

Also SNOOPING! *I am very curious and love things in high places.*

Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.

I supervise my meowmy from atop the counter while she cleans our litter boxes. I also decided last week that I should transplant the plant that sits on top of the shelf in the bathroom. It needed a bigger pot, so I put it in the bathtub instead.

What is the funniest thing that has ever happened to you?

When I was a baby kitten I leaped into the fridgerator to see what was there. My meowmy almost shut the door with me in there.

Please share your adoption story

The TinyKittens people found me on the floor of a barn after I had taken a flying leap (about 20') to discover what was out there in the great big world. That's why I think I should join the Bitty Space Program. My brothers (Orville and Wilbur) and I were covered in fleas and had other issues, and our mama was lost. Shelly and the TK snugglers got us all healthy again. Meanwhile, back at the island, there was a kitten named Spock who really wanted a sibling. Spock's meowmy asked TinyKittens if she could adopt me. Before my adoption was approved, Shelly even asked Foster Dad John (Spock's Foster Dad) to watch me on the video to be sure we would be compatible. Once my adoption was approved, my new meowmy drove across the border to get me and my tiny suitcase. I became a dual citizen of the US and Canada that day (but I'm a Canadian

"Where imagination meets ingenuity"

first and foremost—I likes the PM!) I came home to this cool house on an island with lots of windows to watch deer, rabbits and birds. I like to talk to the hummingbirds, especially. And, I loves my brother Spockie—he lets me have all the food I want.

What is your favourite thing to play with?

Teeny sparkle balls. Not the regular size, the itty bitty ones.

What kind of food do you like to eat?

Does it matter? If it fits, I eats.

Do you like going for car rides?

Meowmy says I am an angel in car rides. I sit quietly in my special capsule and even purr.

What is your favourite cartoon character?

Dora the Explorer

If you drove a car, what make, model and colour would it be and why?

I would drive a Beamer, because my meowmy sometimes calls me Meemer Beamer. I think it would be bright red because I look good in red.

Do you have a theme song? What is it?

Up, Up and Away

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I was born with two brothers: Orville and Wilbur. They have a different forever home. Maybe I'll see them in the Bitty Space Program? My current "big" brother is Spock, though I'm really larger than him. He is a very sensitive guy, often gives me baffe. He lets me be the princess, even eat his food. He chases me around the house and I let him catch me and he nibbles on my ears. I take my cues from him—he's really smart. We mostly love each other, but occasionally get into scraps. Don't all siblings?

What is the name of your human sponsor or sponsors?

Judy ("Catlin") Penn

What type of position are you applying for? What special skills do you think we could use for our program?

I am an Explorer, an Investigator. I love to view things in high places and am very curious. I'm not afraid of heights. I'm also very good at sneaking up on meowmy and staring at her for long periods before she notices me. I could spy on other bitty space programs, perhaps?

What else do we need to know about you?

I have a Certificate of Completion of the TinyKittens Technical College School of Aviation's Basic Flight Training Program (Beginner Level-I) I was named after a famous lady pilot, so I'm destined to be in the Bitty Space Program.

Signed:
