Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.
I bring "babies" to my mom. She is an incompetent caregiver. The "babies" (cat toys) are neglected and she is oblivious. Humans. Fsssh.

What is the funniest thing that has ever happened to you?

When I really want in a room, I talk like Carol Channing: Hewoooh! Hewoooh!

Please share your adoption story

I was eating crickets to survive behind a Foot Locker 20 years ago. I was taken to a shelter, but I was already out of the "cute" age. One of my boys picked me up - even though my mom wanted a "kitten" - and my nickname was created.

What is your favourite thing to play with?

I'm 20. I don't play much except with that other feline that they insisted on adopting. I love to hiss at her any chance I get.

What kind of food do you like to eat?

I prefer canned food that tastes like fish. If it does not meet my expectations, I will throw it up where I know they will find it...in the middle of the night...on the way to the restroom.

Do you like going for car rides?

No. All rides lead to the vet.

What is your favourite cartoon character?

Garfield. He's got the right attitude.

If you drove a car, what make, model and colour would it be and why?

Oh I would never drive. I would hire a driver like Miss Daisy to chauffeur me in my 1978 Pontiac Parisienne.

Do you have a theme song? What is it?

The Golden Girls (obviously).

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I have a "sibling". Her name is Ella. I think she's an idiot. Always running and playing and using a litterbox. She has no class.

What is the name of your human sponsor or sponsors?

Liz White

What type of position are you applying for? What special skills do you think we could use for our program?

The space program needs a pessimist...uh, a realist. Someone needs to keep these young whippersnappers in line.

What else do we need to know about you?

Even though I appear to be a curmudgeon, I'm really an old softy. And we're not just talking about my belly. Also once I escaped out of the front door. I didn't return for six months. I still suffer from PTSD.
