Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.  
*I carefully investigate everything they do, in case it is interesting or fun. So far, it never is.*

What is the funniest thing that has ever happened to you?

*The first night I was with my hoomins, I knocked down the DVD case in the middle of the night and made a huge mess and the silly hoomins were SURPRISED.*

Please share your adoption story

*I was trapped in the Happy Forest and decided to stay inside when I found out how much food there is in there. SO MUCH FOOD.*

What is your favourite thing to play with?

*The spiral binding off notebooks, cut into sections. SPRINGY.*

What kind of food do you like to eat?

*Whatever food I can get at. My hoomins better watch out.*

Do you like going for car rides?

*I don't like being eaten by the metal whale, but so far it has always coughed me back up.*

## Bitty Space Program

*"Where imagination meets ingenuity"*

---

What is your favourite cartoon character?

*Jeff Probst.*

If you drove a car, what make, model and colour would it be and why?

*A sparkly Vespa scooter with my helmet on backwards. Because I am Riska.*

Do you have a theme song? What is it?

*My hoomins have composed a song for me they call The Soft Food Song. It is to the tune of the Conga line march and it is my favourite because it is about soft food and about Riska.*

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

*My sister Hanna is one month younger than me and I have to take care of her so that she doesn't eat too much of her food and get fat. She is not grateful.*

What is the name of your human sponsor or sponsors?

*Jim and Fi Evans*

What type of position are you applying for? What special skills do you think we could use for our program?

*I am a dedicated physics researcher. My area of specialization is gravity, and I check every day to make sure that gravity still works in every room of the apartment. I also like to know what everything is and what everything does and will find the weakness in any system faster than any other kitten.*

What else do we need to know about you?

*I am teeny, so my defence mechanism of choice is to scream like a howler monkey. It is very effective.*
