Please provide an example of one way you 'help' your human accomplish a task better than they could do it by themselves.

My human like to sleep, so I will jump on and off her to wake her up cuz she ignores the sounds coming from the blinky sound machine and the box she talks into. If I didn't do this she would never get up and I would starve!

What is the funniest thing that has ever happened to you?

I was scared cuz my hoomin had gotten into a huge water box while we were visiting grand meowmy so I was running around singing the song of my people to try to get her help from grand meowmy cuz if she drowned I wouldn't get fed and I jumped near the side of the box she was in and the water monster grabbed me and I went into the water box and everyone was shouting and laughing at me and I got out and ran under the bed. I was wetz! It was horrible. But meowmy kept trying to take pictures even tho I kept yelling at her not to and it was a horrible day

Please share your adoption story

I was in the shelter with my brudders and all these hoomins kept poking their paws in at me so I hid in the back. And this lady and a little boy came in and I ran right up to the front cuz she looked right. But she kept walking around and not looking at me. Other hoomins would come in and try to touch me and I go hide in back unless this lady come by and then I try to reach her with my paw. Little boy saw me and told all the big hoomins and they all took time coming to my cage and

"Where imagination meets ingenuity"

I would only come up when the lady came to my cage. So she took me out and I purred to let her know I picked her and then I climbed on top her head and everyone made a "awww" sound (hoomins sound dumb when they do that, did you notice?) and then I went home with her forever and it will be 6 years on New Year's Day. I love my hoomin. Unless she takes me to the V E T. I no like that place.

What is your favourite thing to play with?

I have a kicker with ribbons that meowmy got from tiny kittens. She watches them a lot.

What kind of food do you like to eat?

Toona and cookies. But she makes me eat these dehydrated kibbles, because I'm training to be an astronaut!

Do you like going for car rides?

Only if I can roam free

What is your favourite cartoon character?

Mickey Mouse

If you drove a car, what make, model and colour would it be and why?

Jaguar convertible, dark green with tan leather seats. It would set off my eye color real good.

Do you have a theme song? What is it?

The Turtles, "Cat in the Window (The Bird in the Sky)" (1970)

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I have a sister. Her name is Sasha. She a white cat and mean and old. But she getting more cuddly so maybe some hope for her. We do hide together when the big sky noise happens. I am not telling her about the space program cuz she'd want to be in charge and she's 14! That's too old!

What is the name of your human sponsor or sponsors?

Nancy Rosky

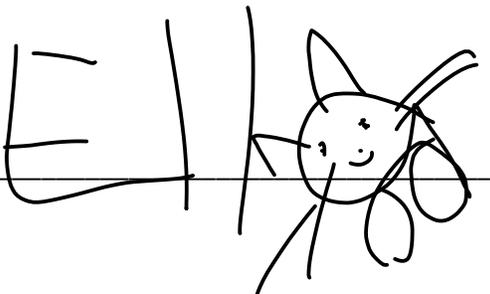

What type of position are you applying for? What special skills do you think we could use for our program?

I would be real good at rescuing people from big water cuz I have so much practice at it so I could be on the recovery team!

What else do we need to know about you?

The V E T is impressed with my ability to run and bite. I could chase off sharks!
