What is the funniest thing that has ever happened to you?

My HS was painting door frames and even though she had told me to not brush against them, I have an extra floofy tail you see, so there was no way to avoid the floof brushing the door frame, so I had pale blue stripes until I allowed her to brush it out.

Please share your adoption story

All I remember is being brought in to the Humane Society and put in in holding container with a cage door on one side and glass on the other. When my HS showed up looking for a new companion to add to her family, I was immediately intrigued by her and started brushing against the glass and showing off my floof. I had her then, now she is the only human that is allowed to pet my belly.

What is your favourite thing to play with?

STRINGS, lots and lots of strings and/or ribbons and HAIR TIES, I cannot tell you how much fun it is to chase hair ties and catch them while in the air and take them back to the HS to toss again.

What kind of food do you like to eat?

My absolute favorite is when the HS opens up a can of tuna with pumpkin, I eat it up really fast.

Do you like going for car rides?

As long as they aren't taking me to that V-E-T person to get poked with a needle!

What is your favourite cartoon character?

Tazmanian Devil, he is so fast, but I think I could keep up with him if given the chance.

If you drove a car, what make, model and colour would it be and why?

Hmm, not sure on this one, I am pretty young still, so my experience with these things has been my HS and her daughter's Kia that they take me around in.

How many siblings do you have and what are they (i.e., other awesome kitties, dumb dogs, ugly snakes, etc.) What is your relationship like with them? If they are also applying to the Bitty Space Program, please include their name.

I have 3 other awesome kitties that are really cool and I am sure they'd love to be in the space program also. One big floofy totally black cat that is the oldest of the family, her name is Princess, although I intend to have her name changed, can only be one Princess in this house, she is 9. Next is Twilight, she is a tabby like me, but she has ZERO floof, how boring is that? She is 5. Then there is Nala, she is a piebald or tuxedo and she is 4.

What is the name of your human sponsor or sponsors?

Sabrina and Alyssa

What type of position are you applying for? What special skills do you think we could use for our program?

Laser Technician or Quality Assurance Specialist, I am excellent at making sure the laser does not get away and also making sure that blankets and other things we lay on are to the proper cleanliness and softness

What else do we need to know about you?

I was very excited to hear about your program and have been on the HS for days now to get around to getting my application finished. I make her read your updates off facebook to me regularly so I never miss anything important.
